EDI Indigenous

1. Human Early Learning Partnership. **Child well-being through an Indigenous lens**. Vancouver, BC: University of British Columbia, School of Population and Public Health; 2018 May. Available from: <https://www.youtube.com/watch?v=v658NruA6vY>.

Other

1. Brownell M, Enns JE, Hanlon-Dearman A, Chateau D, Phillips-Beck W, Singal D, et al. **Health, social, education, and justice outcomes of Manitoba First Nations Children diagnosed with Fetal Alcohol Spectrum Disorder: a population-based cohort study of linked administrative data**. Canadian Journal of Psychiatry. 2019;64(9):611-20. Available from: <https://journals.sagepub.com/doi/abs/10.1177/0706743718816064>.
2. Enns JE, Chartier M, Nickel N, Chateau D, Campbell R, Phillips-Beck W, et al. **Association between participation in the Families First Home Visiting programme and First Nations families' public health outcomes in Manitoba, Canada: a retrospective cohort study using linked administrative data**. BMJ Open. 2019;9(6):e030386. Available from: <https://bmjopen.bmj.com/content/bmjopen/9/6/e030386.full.pdf>.
3. Falster K, Jorgensen M, Hanly M, Banks E, Brownell M, Eades S, et al. **Data Resource Profile: Seeding Success: a cross-sectoral data resource for early childhood health and development research in Australian Aboriginal and non-Aboriginal children**. International Journal of Epidemiology. 2017;46(5):1365-6j. Available from: <https://doi.org/10.1093/ije/dyx051>.
4. Fortier J, Chartier M, Turner S, Murdock N, Turner F, Sareen J, et al. **Adapting and enhancing PAX Good Behavior Game for First Nations communities: a mixed-methods study protocol developed with Swampy Cree Tribal Council communities in Manitoba**. BMJ Open. 2018;8(2):e018454. Available from: <https://bmjopen.bmj.com/content/bmjopen/8/2/e018454.full.pdf>.
5. Hanly M, Falster K, Chambers G, Lynch J, Banks E, Homaira N, et al. **Gestational age and child development at age five in a population-based cohort of Australian Aboriginal and non-Aboriginal children**. Paediatric and Perinatal Epidemiology. 2018;32(1):114-25. Available from: <https://onlinelibrary.wiley.com/doi/abs/10.1111/ppe.12426>.
6. Muhajarine N, McRae D, Soltanifar M. **Aboriginal status and neighborhood income inequality moderate the relationship between school absenteeism and early childhood development**. International Journal of Environmental Research and Public Health. 2019;16(8):1347. Available from: <https://www.mdpi.com/1660-4601/16/8/1347>.
7. Muhajarine N, Puchala C, Janus M. **Does the EDI equivalently measure facets of school readiness for Aboriginal and non-Aboriginal children?** Social Indicators Research. 2011:1-16. Available from: <http://dx.doi.org/10.1007/s11205-011-9847-0>.
8. Sam M. **An Indigenous knowledges perspective on valid meaning making: a commentary on research with the EDI and Aboriginal communities**. Social Indicators Research. 2011;103(315-325). Available from: <http://dx.doi.org/10.1007/s11205-011-9848-z>.
9. Struck S, Enns JE, Sanguins J, Chartier M, Nickel NC, Chateau D, et al. **An unconditional prenatal cash benefit is associated with improved birth and early childhood outcomes for Metis families in Manitoba, Canada**. Children and Youth Services Review. 2021;121:105853. Available from: <https://www.sciencedirect.com/science/article/pii/S0190740920322751>.

EDI Background

1. Corter C, Patel S, Pelletier J, Bertrand J. **The Early Development Instrument as an evaluation and improvement tool for school-based, integrated services for young children and parents: the Toronto First Duty Project**. Early Education & Development. 2008;19(5):773-94. Available from: <https://tspace.library.utoronto.ca/handle/1807/32196>.
2. Goelman H, Hertzman C. **What the EDI is (not) – and why it is important for British Columbia: An open letter to the early childhood educators**. Vancouver, BC: University of British Columbia, School of Population and Public Health, Human Early Learning Partnership; 2007. Available from:
3. Guhn M, Janus M, Hertzman C. **The Early Development Instrument: Translating school readiness assessment into community actions and policy planning**. Early Education & Development. 2007;18(3):369-74.

Available from:

http://www.offordcentre.com/readiness/files/2008_05_29_Guhn_Janus_Hertzman_2007.pdf.

4. Guhn M, Zumbo B, Janus M, Hertzman C. **Opening remarks to the special issue on validation theory and research for a population-level measure of children's development, wellbeing, and school readiness.** Social Indicators Research. 2011:1-3. Available from: <http://dx.doi.org/10.1007/s11205-011-9840-7>.
5. Hertzman C. **Report on the Early Development Indicator mapping in BC.** Vancouver, BC: Human Early Learning Partnership, University of British Columbia; 2005 May. Available from: <http://earlylearning.ubc.ca/documents/322/>.
6. Hertzman C, Bertrand J. **Children in poverty and the use of Early Development Instrument mapping to improve their worlds.** Paediatr Child Health. 2007;12(8):687-92. Available from: <http://www.ncbi.nlm.nih.gov/pubmed/19030447/>.
7. Human Early Learning Partnership. **Mapping Early Development Instrument in British Columbia. Provincial summary.** Vancouver, BC: University of British Columbia, School of Population and Public Health; 2007 Fall. Available from:
8. Human Early Learning Partnership. **Vulnerability on the EDI.** Vancouver, BC: School of Population and Public Health, University of British Columbia; 2011 Oct. Available from: <http://earlylearning.ubc.ca/documents/68/>.
9. Human Early Learning Partnership. **EDI map interpretation fact sheet.** Vancouver, BC: University of British Columbia, School of Population and Public Health, 2011 Oct. Available from: <http://earlylearning.ubc.ca/documents/71/>.
10. Human Early Learning Partnership. **Provincial EDI summary. EDI Wave 5.** Vancouver, BC: University of British Columbia, School of Population and Public Health; 2013 Fall. Available from:
11. Human Early Learning Partnership. **The Early Development Instrument.** Vancouver, BC: University of British Columbia, School of Population and Public Health; 2014. Available from: <http://earlylearning.ubc.ca/documents/53/>.
12. Human Early Learning Partnership. **Understanding critical difference in EDI results.** Vancouver, BC: University of British Columbia, School of Population and Public Health; 2014 Sept. Available from: http://earlylearning.ubc.ca/media/documents/critical_difference_brief_oct_9_2014.pdf.
13. Janus M. **The Early Development Instrument: a tool for monitoring children's development and readiness for school.** In: Young ME, Richardson LM, editors. Early Child Development - From measurement to action A priority for growth and equity. Washington, DC: World Bank; 2007. p. 141-55. Available from: http://www.offordcentre.com/readiness/files/PUB.11.2006_Janus.pdf.
14. Janus M, Brinkman S, Duku E, Hertzman C, Santos R, Sayers M, et al. **The Early Development Instrument: a population-based measure for communities. A handbook on development, properties, and use.** Hamilton, ON: McMaster University, Offord Centre for Child Studies; 2007. Available from: http://www.offordcentre.com/readiness/pubs/2007_12_FINAL.EDI.HANDBOOK.pdf.
15. Janus M, Brownell M, Reid-Westoby C, Bennett T, Birken C, Coplan R, et al. **Establishing a protocol for building a pan-Canadian population-based monitoring system for early childhood development for children with health disorders: Canadian Children's Health in Context Study (CCHICS).** BMJ Open. 2018;8(5). Available from: <http://bmjopen.bmj.com/content/bmjopen/8/5/e023688.full.pdf>.
16. Janus M, Enn J, Forer B, Raos R, Gaskin A, Webb S, et al. **A pan-Canadian data resource for monitoring child developmental health: The Canadian Neighbourhoods Early Child Development (CanNECD) Database.** International Journal of Population Data Science. 2018;3(IPDS Special Issue). Available from: <https://ijpds.org/article/view/431>.
17. Janus M, Reid-Westoby C. **Monitoring the development of all children: the Early Development Instrument.** Early Childhood Matters. 2016;7:40-5. Available from: https://bernardvanleer.org/app/uploads/2016/07/Early-Childhood-Matters-2016_7.pdf.
18. Schroeder J, Rowcliffe P, Smyth T. **Stories from the field: the HELP story; "How are our children doing?"** North Andover, MA: Center for Systems Awareness; 2021 Summer. Available from: <https://www.systemsawareness.org/stories-from-the-field-the-help-story-how-are-our-children-doing/>.

EDI Findings: British Columbia

1. Carpiano RM, Lloyd JEV, Hertzman C. **Concentrated affluence, concentrated disadvantage, and children's readiness for school: a population-based, multi-level investigation.** Social Science & Medicine. 2009;69(3):420-32. Available from: <http://www.ncbi.nlm.nih.gov/pubmed/19540643>.
2. Guhn M, Gadermann A, Hertzman C, Zumbo B. **Children's development in kindergarten: a multilevel, population-based analysis of ESL and gender effects on socioeconomic gradients.** Child Indicators Research. 2010;3(2):183-203. Available from: <http://dx.doi.org/10.1007/s12187-009-9053-7>.
3. Hertzman C. **The role of administrative record linkage in creating trajectories of early human development.** Healthcare Policy. 2011;6(Special Issue):55-62. Available from: www.healthpolicy.ca/product/download/code/22119.
4. Human Early Learning Partnership. **EDI BC. Early Development Instrument British Columbia, 2016-2019 Wave 7 provincial report.** Vancouver, BC: University of British Columbia, Faculty of Medicine, School of Population and Public Health; 2019 Nov. Available from: http://earlylearning.ubc.ca/media/edibc_wave7_2019_provincialreport.pdf.
5. Hutcheon JA, Harper S, Liauw J, Skoll MA, Srouf M, Strumpf EC. **Antenatal corticosteroid administration and early school age child development: A regression discontinuity study in British Columbia, Canada.** PLOS Medicine. 2020;17(12):e1003435. Available from: <https://doi.org/10.1371/journal.pmed.1003435>.
6. Irwin LG, Siddiqi A, Hertzman C. **Early child development: a powerful equalizer. Final report for the World Health Organization's Commission on the Social Determinants of Health.** Vancouver, BC: University of British Columbia, Human Early Learning Partnership; 2007 Jun. Available from: <http://earlylearning.ubc.ca/documents/46/>.
7. Kershaw P. **Generation Squeeze: Getting to the bottom of why EDI trends aren't getting better.** Vancouver, BC: University of British Columbia, School of Population and Public Health, Human Early Learning Partnership; 2019. Available from: http://earlylearning.ubc.ca/media/pk_2019_help_expo_keynote_2019-11-04.pdf.
8. Kershaw P, Anderson L, Warburton B, Hertzman C. **15 by 15: a comprehensive policy framework for early human capital investment in BC.** Vancouver, BC: Business Council of British Columbia and the Human Early Learning Partnership, University of British Columbia; 2009. Available from: <http://earlylearning.ubc.ca/documents/27/>.
9. Kershaw P, Forer B, Irwin LG, Hertzman C, Lapointe V. **Toward a social care program of research: a population-level study of neighborhood effects on child development.** Early Education & Development. 2007;18(3):535-60. Available from: http://www.eric.ed.gov/ERICWebPortal/search/detailmini.jsp?_nfpb=true&_ERICExtSearch_SearchValue_0=EJ780653&ERICExtSearch_SearchType_0=no&accno=EJ780653.
10. Kershaw P, Forer B, Lloyd J, Hertzman C, Boyce W, Zumbo B, et al. **The use of population-level data to advance interdisciplinary methodology: a cell-through-society sampling framework for child development research.** International Journal of Social Research Methodology. 2009;12(5):387-403. Available from: <http://dx.doi.org/10.1080/13645570802550257>.
11. Kershaw P, Irwin L, Trafford K, Hertzman C. **The British Columbia atlas of child development.** Vancouver, BC: Western Geographical Press; 2005.
12. Kershaw P, Irwin L, Trafford K, Hertzman C. **New knowledge about nurturing neighbourhoods: the BC atlas of child development. Executive summary.** Vancouver, BC: Human Early Learning Partnership, University of British Columbia; 2006 January. Available from: <http://earlylearning.ubc.ca/documents/319/>.
13. Kohen D, Lipps G, Hertzman C. **The association of early childhood care and education to children's experiences in Kindergarten.** Vancouver, BC: Human Early Learning Partnership, University of British Columbia; 2006 February. Available from: <http://earlylearning.ubc.ca/documents/320/>.
14. Lapointe V, Ford L, Zumbo BD. **Examining the relationship between neighborhood environment and school readiness for kindergarten children.** Early Education & Development. 2007;18(3):473-95.
15. Lapointe VR. **Conceptualizing and examining the impact of neighbourhoods on the school readiness of kindergarten children in British Columbia.** US: ProQuest Information & Learning; 2007. Available from: <https://circle.ubc.ca/handle/2429/18439?show=full>.

16. Lapointe VR, Ford L, Zumbo BD. **Examining the relationship between neighborhood environment and school readiness for kindergarten children.** *Early Education & Development.* 2007;18(3):473-95. Available from: http://www.tandfonline.com/doi/abs/10.1080/10409280701610846#.VcunC_IVhBc.
17. Li J, D'Angiulli A, Kendall G. **Response to "Reply to Li, D'angiulli, and Kendall: The Early Development Index and Children from Culturally and Linguistically Diverse Backgrounds" by Janus, Hertzman, Guhn, Brinkman, and Goldfeld.** *Early Years: An International Journal of Research and Development.* 2009;29(1):89-92. Available from: <http://www.tandfonline.com/doi/pdf/10.1080/09575140802689240>.
18. Lloyd JE, Hertzman C. **From kindergarten readiness to fourth-grade assessment: longitudinal analysis with linked population data.** *Social Science & Medicine.* 2009;68(1):111-23. Available from: <http://www.ncbi.nlm.nih.gov/pubmed/18986743>.
19. Lloyd JEV, Boonstra J, Chen L, Forer B, Hershler R, Milbrath C, et al. **A glossary on building longitudinal, population-based data linkages to explore children's developmental trajectories.** *Journal of Modern Applied Statistical Methods.* 2019;18(1):eP3180. Available from: <https://digitalcommons.wayne.edu/jmasm/vol18/iss1/17/>.
20. Lloyd JEV, Hertzman C. **How neighborhoods matter for rural and urban children's language and cognitive development at kindergarten and Grade 4.** *Journal of Community Psychology.* 2010;38(3):293-313. Available from: <http://onlinelibrary.wiley.com/doi/10.1002/jcop.20365/abstract>.
21. Lloyd JEV, Irwin LG, Hertzman C. **Kindergarten school readiness and fourth-grade literacy and numeracy outcomes of children with special needs: a population-based study".** *Educational Psychology.* 2009;29(5)(August):583-602. Available from: <http://www.tandfonline.com/doi/pdf/10.1080/01443410903165391>.
22. Milbrath C, Balayeva J, Buote D. **The Early Childhood Population Databases. Early Childhood Learning Knowledge Centre's Monitoring Committee.** Montreal, Quebec: Canadian Council on Learning; 2009 Aug. Available from: <http://earlylearning.ubc.ca/documents/38/>.
23. Mort JN, Hughes N, Dockendorf M, Quigg P, Hertzman C. **The Early Development Instrument (EDI) in British Columbia. Documenting impact and action in schools, community, and early child development.** Vancouver, BC: University of British Columbia, School of Population and Public Health, Human Early Learning Partnership; 2008. Available from: http://www.earlylearning.ubc.ca/resources_reportspubs.htm#edi.
24. Mort JN, Hughes N, Dockendorf M, Quigg P, Hertzman C. **The Early Development Instrument in British Columbia: documenting impact and action in schools, communities and early childhood development.** Vancouver, BC: University of British Columbia, School of Population and Public Health, Human Early Learning Partnership; 2009 Jan. Available from: <http://earlylearning.ubc.ca/documents/31/>.
25. National Collaborating Centre for Determinants of Health. **Webinar: Action on health equity through early childhood development programs, measurement and policy [with speaker Pippa Rowcliffe, HELP's Deputy Director, and others].** Antigonish, NS: National Collaborating Centre for Determinants of Health; 2019 Apr 18. Available from: http://nccdh.ca/workshops-events/entry/webinar-action-on-health-equity-through-early-childhood-devt-programs-measu?utm_source=MailChimp&utm_medium=email&utm_campaign=2019-Apr18webinar&mc_cid=b32c5e063d&mc_eid=04816d6ac3.
26. Park M, Hanley GE, Guhn M, Oberlander TF. **Prenatal antidepressant exposure and child development at kindergarten age: a population-based study.** *Pediatric Research.* 2021;89(6):1515-22. Available from: <https://doi.org/10.1038/s41390-020-01269-6>.
27. Poon B. **Development of a provincial hearing loss registry in British Columbia.** *Canadian Association of Educators and the Deaf and Hard of Hearing (CAEDHH)* 2006:6. Available from: <http://earlylearning.ubc.ca/documents/43/>.
28. Poon B, Hertzman C. **Development of an integrated child health information system for children who are deaf and hard of hearing.** *Paediatrics & Child Health.* 2010;15(9):583-9. Available from: <http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3009565/>.
29. Poon BT, Atchison C, Kwan A, Veasey C. **A community-based systems dynamics approach for understanding determinants of children's social and emotional well-being.** *Health & Place.* 2022;73:102712. Available from: <https://www.sciencedirect.com/science/article/pii/S1353829221002082>.
30. Razaz N. **Neda Razaz: The Apgar score and association with neonatal mortality and morbidity.** *BMJ Opinion.* 2019. Available from: <https://blogs.bmj.com/bmj/2019/05/07/neda-razz-vandyke-the-apgar-score-and-association-with-neonatal-mortality-and-morbidity/>.

31. Razaz N, Cnattingius S, Persson M, Tedroff K, Lisonkova S, Joseph KS. **One-minute and five-minute Apgar scores and child developmental health at 5 years of age: a population-based cohort study in British Columbia, Canada.** *BMJ Open.* 2019;9(5):e027655. Available from: <https://bmjopen.bmj.com/content/bmjopen/9/5/e027655.full.pdf>.
32. Schroeder J, Harvey J, Razaz-Rahmati N, Corless G, Negreiros J, Ford L, et al. **Creating communities for young children. A toolkit for change.** Vancouver, BC: Human Early Learning Partnership, University of British Columbia; 2009. Available from: <http://earlylearning.ubc.ca/documents/20/>.
33. Spanner T. **Revelstoke early childhood development strategic plan.** Revelstoke, BC: Prepared for the Revelstoke Early Childhood Development Committee; 2011 Nov. Available from: <http://www.sd19.bc.ca/pdf%20Files%20For%20Website/ECD%20Strategic%20Plan%20Update%20November%202011.pdf>.
34. Thomson KC, Guhn M, Richardson CG, Ark TK, Shoveller J. **Profiles of children's social-emotional health at school entry and associated income, gender and language inequalities: a cross-sectional population-based study in British Columbia, Canada.** *BMJ Open.* 2017;7(7):e015353. Available from: <https://bmjopen.bmj.com/content/bmjopen/7/7/e015353.full.pdf>.
35. Thomson KC, Richardson CG, Gadermann AM, Emerson SD, Shoveller J, Guhn M. **Association of childhood social-emotional functioning profiles at school entry with early-onset mental health conditions.** *JAMA Network Open.* 2019;2(1):e186694. Available from: <http://dx.doi.org/10.1001/jamanetworkopen.2018.6694>.
36. Thomson KC, Richardson CG, Samji H, Dove N, Olsson CA, Schonert-Reichl KA, et al. **Early childhood social-emotional profiles associated with middle childhood internalizing and wellbeing.** *Journal of Applied Developmental Psychology.* 2021;76:101301. Available from: <https://www.sciencedirect.com/science/article/pii/S0193397321000642>.
37. Vancouver Early Years Partnership (VEYP), Human Early Learning Partnership (HELP). **Vancouver demographic reports.** Vancouver, BC: University of British Columbia, School of Population and Public Health, HELP; 2019 Jan. Available from: <http://earlylearning.ubc.ca/maps/data/>.
38. Vital Signs. **Local reports (includes Early Development Instrument data by community).** Ottawa, ON: Community Foundations of Canada; 2014. Available from: <http://www.vitalsignscanada.ca/en/localreports>.

EDI Findings: National (Canada) Note: BC findings are noted in previous category

1. Alberta Ministry of Education. **The Early Development Instrument (EDI) and how it's being used in Alberta.** Edmonton, AB: Government of Alberta; 2011 Mar. Available from: <http://education.alberta.ca/admin/ecs/eccd.aspx>.
2. Birken CS, Omand JA, Nurse KM, Borkhoff CM, Koroshegyi C, Lebovic G, et al. **Fit for School Study protocol: early child growth, health behaviours, nutrition, cardiometabolic risk and developmental determinants of a child's school readiness, a prospective cohort.** *BMJ Open.* 2019;9(11):e030709. Available from: <https://bmjopen.bmj.com/content/bmjopen/9/11/e030709.full.pdf>.

EDI Mapsets, Community Reports

Note: the map sets are not listed individually; there are included as follows:

1. Human Early Learning Partnership. (2019). Early Years Development Instrument EDI (Early Years Development Instrument) W6 Supplementary Report. EDI Subscales Community Profiles. Retrieved from <http://earlylearning.ubc.ca/maps/edi/>

Other, as selected

1. Poon B. **BC Early Childhood Vision Screening Program: final evaluation report.** Vancouver, BC: University of British Columbia, School of Population and Public Health, Human Early Learning Partnership; 2012. Available from: <http://earlylearning.ubc.ca/documents/294/>.
2. Poon B. **Map of dentist dental decay with selected socioeconomic and Early Development Instrument (EDI) data: 2009.** Vancouver, BC: University of British Columbia, School of Population and Public Health, Human Early Learning Partnership; 2012. Available from: <http://earlylearning.ubc.ca/documents/295/>.

3. Provincial Health Services Authority. **The British Columbia Community Health Data website**. Vancouver, BC: PHSA; 2016; Available from: <http://communityhealth.phsa.ca/>.

EDI Psychometric Properties

1. Duku E, Janus M, Brinkman S. **Investigation of the cross-national equivalence of a measurement of early child development**. Child Indicators Research. 2015;8(2):471-89. Available from: <http://link.springer.com/article/10.1007%2Fs12187-014-9249-3>.
